Property description

When a property is in an elevated location and offers breathtaking views, it is essential to highlight it... And renowned architect Angelo Andina of Locarno succeeded splendidly.

All the rooms in the villa, without exception, enjoy views so spectacular that they leave you breathless.

Here, at this height, a place of peace and a sensory retreat has been created for the soul to relax.

The property can be reached by an inclined elevator from its own double garage.

The villa has two living floors and a basement, which houses a large space ideal for an art studio, luxury wine cellar or private wellness-fitness area.

The outdoor area, with a magnificent pool and terrace with outdoor kitchen/grill, is an incredible place to enjoy outdoor refreshments, watch sunsets over Lake Maggiore and Monte Verità, spend time with family or friends, or simply live and be.

The building has been well maintained over time, but is in need of modernization/renovation.

Second residence is possible on this property.
